

PRESENTS

intelligent *lives*

a film by dan habib

Intelligent Lives challenges perceptions of intelligence as it profiles three pioneering young adults with intellectual disabilities, and points to a future in which people of all abilities can fully participate in higher education, meaningful employment and relationships.

The film highlights the important role that educators, employers, friends and family can play in supporting successful inclusion.

What can we do to make our community more inclusive for people of all abilities?

Wednesday, March 25, 7:00pm
Pollard Middle School, 200 Harris Ave, Needham

FREE SCREENING will be followed by a panel with:

- **John Byrne**, Senior Director of Employment and Day Services, Charles River Center
